Focus on Organics

Focus on Organics is a list of products grouped into chemical families based on either application or compound type. This list can **simplify your product search** while introducing you to our newest products.

Visit www.acros.com/literature to find a Focus on Organics that supports your chemistry.

Maybridge Building Blocks

The availability of diverse and pharmacophorically relevant synthetic building blocks remains a key factor in the drug design process. Over the last 50 years we have built an unparalleled collection of building blocks.

This flier outlines the key features of our building blocks and the systematic process used to design them.

AcroSeal Packaging Brochure

This new entirely revised and updated AcroSeal packaging brochure includes:

- A complete list of products in AcroSeal packaging, including the new 4 x 25mL AcroSeal range
- An improved format with products categorized by chemical families to enable easier searching
- An alphabetical index
- AcroSeal packaging highlights
- The recommend process for using AcroSeal products
